We've created the perfect setting to call home.

Personal Care Services

Your health and safety are our main concern. Our qualified and caring staff supports your independence, yet provides personalized support and assistance as you need it. There is peace of mind in knowing someone is available when needed.

We develop, only when needed, a personal service plan that supports your needs to remain independent, yet provides the necessary assistance as required. These individualized service plans can be easily arranged for simple things such as medication reminders, morning and evening care, incontinence care, additional daily room checks and special monitoring, to higher levels of care and assistance by licensed and certified professionals.

Wellness Services

Our wellness service is a no-cost service included as a part of the monthly base rent, whereby each resident has access to our licensed nurse on a regularly scheduled day, should they so choose.

Our wellness clinic is designed to promote healthy living, encourage helpful and healthy habits, prevention, health screenings and various periodic health monitorings. Our wellness nurse, while available to other health related or medical needs, is not intended to replace one's personal physician or other ancillary services.

Be Well & Dine Well

At Autumn Trace our Chefs have taken dining to a whole new level. Restaurant style dining means you select what you want for breakfast lunch and dinner. Between meals, snacks and beverages are always available. Eating plenty of fiber, fruits and vegetables while limiting fat is good for you. However, eating well doesn't have to be limiting or restrictive. Our chef can tailor menus and meals to help you eat well, watch your weight and still enjoy your food.
